

WC Docket number 18-155 regarding: Updating the
Inter-carrier Compensation Regime including conference calling
services.

We would appreciate if our free conference calling could
continue as we do listen to church services when unable
to attend also the various singing calls. Thank you for
paying attention to this matter

DEC 03 2018

DOCKET FILE COPY ORIGINAL

FCC Mailroom

As a taxpayer, and a free conference calling client, I ask you to please reconsider
acting on WC Docket No. 18-155. My free conference calling services are currently at
risk of being completely eliminated and costing me, millions of others and our
businesses.

I am urging you to refrain from eliminating services that I and millions of other
Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free
conference calling services are left alone. In fact, they stand to gain upwards of \$80
million.

However, if the FCC does decide to remove these services, I and millions of other
American citizens and American businesses will be immediately and negatively
affected. We will no longer be able to use these services for free and will instead be
forced to pay for conferencing services provided by the long-distance carriers if we
want to reach our non-profit organizations, our families, our churches, singing calls,
news calls, prayer groups, support groups, board meetings, committee meetings,
startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free
conference calling.

Do not take away my free conference calling services and further line the pockets of
major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its
rulemaking in WC Docket No. 18-155.

WC Docket Number 18-155 regarding
 updating the Inter-carrier Compensation Regime
 including conference calling services

as a citizen and Taxpayer of the U.S. I ask
 that our free conference calling would continue
 (as well as our unlimited long distance calling)
 the conference call is our means of connecting
 with friends around the world. As we get older
 we cannot always travel to a funeral so we listen
 on the conference line. Also church services,
 singing groups, news calls, history calls and so
 much more, school program, special meetings
 and the list could just go on and on.
 Many friends I know listen to the conference
 line as well and widows would be very
 lonely without it.

I ask that you please do not take away the
 free conference calling from us and our friends.
 Our church groups as well as many other conservative
 Mennonite church groups offer free services to the public
 after hurricanes, floods, tornadoes, fires, storms and other
 disaster strikes our volunteer groups are ready to
 go to work clean up, repair or rebuild and their
 work goes on for weeks and months some for years.
 And here is another reason I ask that our free
 long distance calls would not be discontinued.
 this is how parents keep in touch with their children
 keep in touch with their siblings and their parents.

We enjoy listening to singing ^{calls} and also receive nationwide news on a conference call, since we do not have television or radio. Once a week we have a family call with extended family from 3 different states. Also, when we are sick and cannot attend church, we call and listen to the services on the phone. We have also listened to out-of-state funerals that we could not attend. Many handicapped and elderly folks also enjoy and appreciate these calls.

We would be so grateful if you could allow these

WC Docket number 18-155 regarding
updating the intercarrier Compensation Regime
including conference calling services.

It grieves me greatly that the Conference line
might be shut down. I am an older person
that gets much enjoyment out of it.
Many a long evening goes by quickly when
we can enjoy music. There's many shut-ins
that cannot go to church services, but can
enjoy the church service over the phone
line. Many prayer request go over this line
for the sick and injured. My prayer is you
might consider this and leave this as it is.
Thank you very much!

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

To whom it may Concern:

As a Minister of the Gospel in this church group Conneautville, PA. My plea is that we can continue the phone service we have. We at the present have a sick Sister and her helper, that can listen in our services. "Would appreciate your consideration" Jacob Wisley
Thank you

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

WC Docket No, 18-155

Attention FCC

I have recently been alerted to the potential rule that FCC is considering enacting - WC Docket No, 18-155. I am deeply concerned about this as this will affect mission work for those reaching out to addicts, the hopeless, widows, the elderly, the handicapped and our teenagers ability to reach out to their friends. We do not give permission to our teenagers to have cell phones, with hope that we can keep them from getting entangled by the Web.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on this. Our free conference calling services are currently at risk of being completely eliminated and costing us, and millions of others and our businesses. Many of those who are taking advantage of this service, could not afford to use the service, if it was a pay for use service, especially mothers with young children, widows, the elderly, the handicapped, and their caretakers, and other homemakers. For many of these, it is their connection with their Church Community, or for listening to encouraging gospel music that helps them cope with pain and loneliness.

I am urging you to please refrain from eliminating services that so many millions of us Americans depend on regularly.

Long-distance carriers will not be negatively affected financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, we and millions of other American citizens and businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Please do not take away our free conference calling services and further enrich the pockets of major long-distance carriers.

Again, I am asking the Federal Communication Commission to please reconsider & refrain from proceeding with its rulemaking in WC Docket No. 18-155.

RE: WC Docket 18-155

PAGES:

FCC

As an American tax payer I use the unlimited calling plan for business and listen to the conference lines to listen in on plain community conference calls. We profess to live the Amish/ Mennonite faith and do not have tv, computers or cell phones. It's beneficial to listen in to other like minded folks from other communities on our conference calls. I understand that **WC docket 18-155**

would eliminate this service. I can't imagine the negative impact this would have on thousands of businesses, not just the plain communities but large companies that regularly use these services

My grandfather was a widower and spend much time on the conference call to pass the long lonely hours, to confer with other members of the plain communities, to encourage and admonish other people in his situation. Housebound, sick and elderly people can listen in on church and prayer services and other singing calls not available to them otherwise.

I understand the long distant phone companies would not be negatively impacted financially or otherwise, and are making a large profit already, if this free conference calling is left alone. This would only further line their pockets, and I'm afraid this would not improve our already failing Landlines

I beg the great American people at the FCC in the great American government to reconsider the damage this **WC Docket 18-155** would do if these services were not left alone. Please, do not take these freedoms away. Please!!

You can call me any time

THANKS

Paul Burkholder

We would really appreciate if you would not eliminate the free conference calling, as we use it alot for church and singing calls.
Thank-you
